

Water Solution Package

On-line Water Training & Information Support Site

Your Hemodialysis Need

The need for hemodialysis water training, inspection, and information has placed greater demands on you and your staff, while at the same time, regulatory organizations continue to refine standards of water product performance. Limited time, skills, and resources can get in the way of a high-quality, water treatment program.

Our Solution

Mar Cor is a name you have come to trust in hemodialysis. The perfect combination for your dialysis clinic now offers the Water Solution Package – the tool you need for total water convenience at your clinic.

The Water Solution Package consists of training for your staff on hemodialysis water topics and offers hemodialysis support information you can use. We enroll you and your staff into the Dialysis Water University Program for complete on-line water training while providing you access to reference materials and other water information based sites.

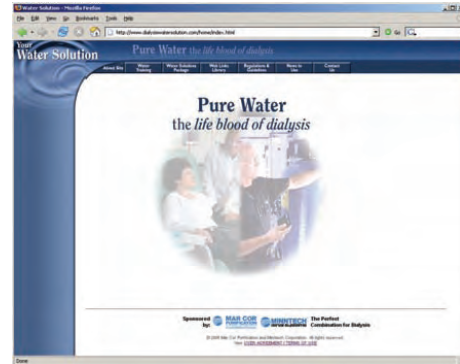

The Water Solution Package

On-line Water Training & Information Support Site

www.dialysiswatersolution.com
