MAR COR[®]
PURIFICATION
A Cantel Medical Company

Mar Cor Purification Life Science Products

Corporate Profile

Mar Cor Purification (MCP) is owned by Cantel Medical Corporation (CMN), a New York Stock Exchange listed company. MCP is a leading provider of complete water treatment systems and services for the Life Science market. For over 40 years and over 1000 installations, we have been providing high purity water solutions to companies in many Life Science industrial sectors. The New England Service Center, formally Fluid Solutions, is the headquarters for our New England operations, offers full manufacturing capabilities, is a re-generation plant, and has engineering services. The New England Service Center is one of 22 MCP offices and one of the 7 regeneration plants across the US and Canada.

Mar Cor Purification Water Treatment Capabilities

- Reverse Osmosis (RO)
- Water Softeners
- Carbon Filters
- Media Filtration
- Electrodeionization (EDI)
- Service Deionization (SDI)
- Ultrafiltration
- Ultraviolet Purifiers
- Depth/Pleated Filtration
- Ozone Disinfection Systems
- Cleaners & Sterilants
- PLC/HMI Control Systems

Products & Services

High Purity Water Systems

Mar Cor Purification is an industry leader in high purity water systems for Medical, Pharmaceutical, Semiconductor, Commercial & Industrial, and Lab Water applications. MCP can provide a quality purification solution for any situation or application.

- Single-source provider of installed water purification systems
- Design & Engineering Services
- Standard and custom modular and skid mounted systems
- Integrated PLC based control systems
- Superior designs proven to minimize bacteria growth
- "Green" options for water recovery and energy efficiency

RO Reject Collection & Distribution Systems

- Conserves and re-uses RO reject water
 - Cooling Tower makeup
 - Quench water
 - Irrigation

PH Neutralization Systems

- Standard modular designs
- Proportional chemical injection for accurate control
- Ensures compliance with local discharge requirements
- Data recording, collection, and transmission options

Rainwater Harvesting & Treatment Systems

- Designs meet Green building/LEED effort
- Compliance with all local plumbing codes for water reuse
- Bacterial control options
- Custom designs available based on end use requirements

Service Deionization (SDI)

- Portable deionization to produce 18 megohm water consistently
- State of the art resin regeneration protocols
- Batch records for compliance with traceability requirements
- Segregated and dedicated resins available

Mar Cor Purification Support Services

Mar Cor Purification is one of the largest and most experienced water purification companies in North America. We have been servicing water treatment equipment for over 40 years and have an experienced, qualified team of technicians qualified to work on your water systems based out of our Lowell office. Key services offered include:

Engineering and Design Services

Working with our clients, in a collaborative engineering and design effort, ensures the delivery of equipment properly designed to meet your needs. MCP provides fully integrated services to ensure that the system you purchased meets your requirements.

After Care Services

Once installed, MCP preventative maintenance contracts and services ensure the continued production of high purity water. MCP is available 24/7 to provide you emergency and scheduled support services to keep your system operating at peak efficiency including:

- Periodic service by qualified technicians to ensure peak performance and protect your capital investment
- Analytical testing by independent laboratories ensure compliance
- Periodic system cleaning and sanitization

Equipment Installation

- System Start-Up
- In-Depth Operator Training
- Storage & Distribution Piping Systems

Maintenance & Repair

- Diagnostics and Repair Services
- System Performance Audits
- Preventative Maintenance

Engineering Services

- Validation Documentation
- Engineering Documentation
- Project Management
