

Curtis D. Weitnauer Joins Mar Cor Purification

Minneapolis, MN – (October 12, 2006) Mar Cor Purification has hired Curtis D. Weitnauer to be their new President. Mr. Weitnauer joins Mar Cor Purification after more than 20 years of industry experience with GE Water & Process Technologies and Osmonics Inc. (now a part of GE Water).

For the past three years, Mr. Weitnauer has served as the Global Equipment Supply Chain Leader for GE Water responsible for optimization of North American plants and globalization of GE Water's equipment platform. Prior to this at Osmonics, Mr. Weitnauer served as Vice President and General Manager of Osmonics from 2000 to 2003, and before this, in a series of increasingly senior sales, marketing and business development positions.

Mr. Andrew A. Krakauer, Executive Vice President and Chief Operating Officer of Cantel Medical Corp., said "With his extensive background and senior management experience within the water and filtration industry, and given his success as a general manager, as well as in senior sales, marketing and operational roles, Curt is the ideal person to lead our growing water purification and filtration business."

Mar Cor Purification is dedicated to providing innovative solutions through filtration, water, and disinfection technologies. Mar Cor Purification now has service offices in 15 cities in the US and Canada with six ion exchange resin regeneration plants strategically located in Atlanta, Boston, Chicago, Philadelphia, Montreal and Toronto. They offer support with design engineering capabilities, 24/7 service coverage, field application sales, experienced service technicians, and a fleet of stocked service vehicles. As a wholly owned subsidiary of Cantel Medical Corp. (NYSE:CMN), Mar Cor Purification is uniquely positioned to offer the medical, life science and industrial marketplace hollow fiber membrane filtration, complete water purification equipment and services, and proven sterilant products. We deliver value to our customers by improving product quality, reducing operating costs, protecting capital investments, and safeguarding people's lives. For more information on Mar Cor Purification, visit our website at <http://www.mcpur.com>.

Cantel Medical Corp. is a leading provider of infection prevention and control products in the healthcare market. Our products include specialized medical device reprocessing systems for renal dialysis and endoscopy, dialysate concentrates and other dialysis supplies, disposable infection control products primarily for the dental industry, water purification equipment, sterilants, disinfectants and cleaners, hollow fiber membrane filtration and separation products for medical and non-medical applications, and specialty packaging for infectious and biological specimens.

We also sell scientific instrumentation products, provide technical maintenance for its products and offer compliance training services for the transport of infectious and biological specimens. For further information, visit the Cantel web site at <http://www.cantelmedical.com>

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements involve a number of risks and uncertainties, including, without limitation, the risks detailed in Cantel's filings and reports with the Securities and Exchange Commission. Such forward-looking statements are only predictions, and actual events or results may differ materially from those projected or anticipated.
