

## Announcement

# Mar Cor Purification Introduces NEW Double Bagged Actril Cold Sterilant

*...The Ideal Sporicidal Disinfectant for Cleanroom Environments*

**Plymouth, MN**, (July 2009) Mar Cor announced that one of the safest, most effective Ready-to-Use sporicides is now available in cleanroom packaging to make it easier to use in cleanroom settings. Actril<sup>®</sup> Cold Sterilant is a leading surface disinfectant in medical and cleanroom applications. Actril<sup>®</sup> Cold Sterilant complies with the USP guidelines for choosing disinfectants for aseptic areas. It is biodegradable, leaves no detectable residual on the surfaces and because of the unique method of disinfection, Actril<sup>®</sup> Cold Sterilant does not have to be part of a disinfectant rotation.

Key features of the repackaging include:

- Double Bagged
- EtO Processed (6 log reduction of *B. atrophaeus* spores)
- Packaged as 6x1 kg bottles w/sprayers per case
- Complete lot traceability and documentation conforms to the pharma standards
- Bactericidal, mycobactericidal, fungicidal, virucidal and sporicidal.
- Available worldwide

Along with Actril<sup>®</sup> Cold Sterilant, Mar Cor Purification offers water treatment equipment, filtration and disinfection technologies. The filtration products include unique FiberFlo<sup>®</sup> hollow fiber membrane filters designed to protect products and processes from bacterial and endotoxin contamination. Minncare<sup>®</sup> Cold Sterilant is ideal for water and process system sanitization and is also used with our proprietary Minncare Dry Fog<sup>™</sup> and Mini-Fog<sup>™</sup> System.

For information on the new packaging please call 1-800-633-3080 to speak to a Customer Service representative.
